

Event Agenda

Thursday, 15 October 2026

Time	Session	Speakers	About
10:00–11:00	Registration and networking		
11:00–11:10	Welcome and opening remarks	Paul Taylor, CMO, C TWO	
11:10–11:30	Take control: universal orchestration for the agentic enterprise	Paul Donaldson, CEO, C TWO	What universal orchestration actually means, and why the layer that answers for your estate cannot belong to a vendor with execution to sell.
11:30–12:10	AMPlified: the C TWO platform beyond RPA	- Colin Redbond, CPTO, C TWO - Menia Laina, Head of Product, C TWO	A year on from introducing the Agentic Management Platform (AMP), see orchestration, operations and intelligence working as one layer across every technology you run.
12:10–12:45	E.ON's case for independent universal orchestration	- Loes Rijkssen, Product Owner, Essent (part of E.ON) - Paul Heiner, Scrummaster, Essent (part of E.ON) - Dennis Depping, Senior Automation Architect, E.ON	How an automation team reshaped itself around what the business actually needs, what that asks of group governance, and where universal orchestration comes in.
12:45–13:30	Light lunch and demo stations		
13:30–14:10	Designed by nobody: AI and automation, state of the market	Wayne Butterfield, Founder, STX-AI	An independent read on where the market is and where it is heading, built around three decisions nobody owns: how much autonomy an agent gets, what a decision costs, and who is accountable when it fails.
14:10–14:30	All in: how Allianz UK took control of its estate in one move	- Chris Hartley, Head of BOAT, Allianz UK - Jordan Bradford, Principal Consultant, UST	Most pilots start small. Allianz UK and UST went the other way and proved the case on license demand and support effort before the pilot finished.
14:30–15:00	The agentic enterprise: what executives expect in the AI era	Dominique Braganca, Head of Product, Agentic Automation, Lloyds Banking Group	What executives now expect before they will delegate work to agents, and a practical framework for knowing what exists, seeing how it performs, and acting when it matters.
15:00–15:30	Networking break and demo stations		
15:30–15:50	From legacy RPA to Microsoft: migrating without losing control	Jon Hinder, COO, DigiBlu	Why DigiBlu called the shift to Microsoft early, how they are sequencing client migrations off legacy RPA, and what it takes to stay in control mid-flight.
15:50–16:10	From automation to orchestration: putting humans in the loop at Partou	- Dion Morskieft, Head of CoE Intelligent Automation, Partou - Esther Schreuders, RPA Engineer, Partou - Jimmy Greaves, Professional Services Manager, C TWO	How Partou made human steps visible across UiPath and Power Automate, from the first team to put AMP's newest capabilities into production.
16:10–16:50	Beyond control: what automation and AI teams could unlock	- Thomas Bredl, Product Owner, Allianz Kunde und Markt - Jose Ferrer, Head of AI & Automation CoE, Ricoh - Łukasz Staszak, Automation Team Lead, Commerzbank	A conversation on what these teams fixed first, what their multi-technology use cases look like now, and how far they think it takes them over the next two to five years.
16:50–17:00	Closing remarks	Paul Donaldson and Paul Taylor, C TWO	
17:00–18:30	Demo stations and networking happy hour
